

your patients **expect** precision

So Get Precise.

PRECISE™ Pressure Indicating Paste

A specially formulated denture pressure indicator paste that is user friendly. It brushes on smooth and effortless, locates exactly the slightest pressure area that causes displacement or discomfort, and quickly wipes off clean with a facial tissue. We recommend Precise Brush Cleaner solution for quickly dissolving all types of pressure indicator pastes.

Available through your local Dental Supplier.
Distributed across Northern America by Bolton Dental Mfg. Inc.
